Description: Rivian has determined that on certain R1S and R1T vehicles, the front passenger seat belt system does not comply with FMVSS 208 S14 which requires certification to frontal barrier belted and unbelted crash test performance requirements. This condition may result in a noncompliance with FMVSS 208, Occupant crash protection.

If a passenger is seated in the front passenger seat and the seat belt automatic locking retractor is reporting on incorrectly, the passenger air bag may not deploy as intended. In the event of a crash which is supposed to deploy the front passenger air bag, the occupant may have an increased risk of injury due to a reduced deployment or lack of deployment.

Remedy: Your Rivian Mobile Service Technician or Rivian Service Center will inspect and replace, if necessary, passenger seat belt system components in the affected vehicles.

<p>Description: Rivian has decided that a defect which relates to motor vehicle safety exists in certain model year 2022 Rivian R1T and R1S vehicles that were built with an early revision accelerator pedal.</p> <p>"The accelerator pedal may not detect when the driver releases the pedal in hot cabin temperatures, failing to activate ""auto-hold"" or ""park"" as intended. If this occurs, the vehicle may not automatically go into auto-hold or park. This condition may cause the vehicle to creep forward. If this occurs, the driver will be required to take other action to place the vehicle into hold or park, such as depressing the brake pedal and/or pressing the park button. If the vehicle does not automatically go into auto-hold or ""park, this may increase the risk of a crash."</p> <p>Remedy: Rivian has already implemented a new software update (2023.46.01 or 2023.50). Software update should take an hour to complete. Rivian will also replace all subject accelerator pedals, free of charge.</p>

**Glossary****First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
