1. Prices shown do not include all applicable taxes and fees.

2. Actual vehicle capability will depend on selected options and trim. Torque, horsepower, and acceleration timing estimates vary based on battery, tire, drive modes, vehicle load and weather. All range estimates are based on a Dual Standard with 20" All-Season wheel and tire or Dual Large, Dual Max, Tri Max with 22" Sport wheel and tire. Official EPA values are noted — some range estimates are preliminary. All range estimates are based on the EPA test cycle and are not official EPA values. The EPA estimates range through a series of standardized lab tests that mimic real world conditions. Factors including tires, drive modes, HVAC settings and accessories can all have an impact on range.
